HSE ADVISOR

A competent and multi-skilled occupational health and safety professional with a bottom-line target-driven approach incorporating a wide range of leadership, people & management tools & skills that ensures smooth operations and maintenance of the Organization's assets, facilities, and properties, as well as the safety and well-being of employees, in order to achieve a quick positive return on investment and overall success of corporate strategic and tactical plans.

I have 14 years of rich and versatile experience in Health, Safety, and Environment practice across the Oil & Gas, Subsea works, Civil Construction, Marine, Fabrication, Engineering, and commissioning in Offshore and Onshore environments'.

My philosophy: The Company's facility's operation and maintenance are more than just a cost center. Employee safety and well-being are the most valuable resources and are non-negotiable. Most importantly, teaching employees behavioral value systems and working safely is critical. These convictions are essential for effective company success.

WORK HISTORY

NATIONAL PETROLEUM CONSTRUCTION COMPANY (NPCC)

Designation: HSE Advisor (Onshore & Offshore)

(2015 till Date)

Duties & Responsibilities:-

- I prepare accident/incident reports to find out the causes and adopt proper preventive measures.
